

Building Your Trust in Solar

JinkoSolar is Sole PV company Given Highest AAA Rating for Credit Quality in the Chinese Market

December 1, 2020

SHANGRAO, China, Dec. 1, 2020 /PRNewswire/ -- JinkoSolar Holding Co., Ltd. ("JinkoSolar" or the "Company") (NYSE: JKS), one of the largest and most innovative solar module manufacturers in the world, today announced that it is the sole PV company given the highest AAA rating^[1] for credit quality in the Chinese market. This highest rating is the recognition of market quality credit management capabilities and levels of a company, through a comprehensive evaluation of the Company's credit, quality assurance capabilities, market operation capabilities and other indicators, conducted by the China Association for Quality (CAQ). With this recognition, JinkoSolar sets a new company milestone and benchmark for the rest of the PV industry in terms of user satisfaction and quality management.

Leveraging the Company's leading intelligent manufacturing process and product quality management, JinkoSolar has become a highly respected name in the global PV industry. It continues to elevate international standards for intelligent premium quality manufacturing, with its advanced intelligent equipment and excellent quality control system, JinkoSolar has been awarded numerous international quality certifications, and its outstanding reputation has contributed to positioning Chinese manufacturers as some of the most dominant players in the global PV industry beyond China. Based on its product innovation, supply stability and a well-established global service network - JinkoSolar has been ranked first in terms of global shipments for four consecutive years^[2].

"We will continue to focus on the R&D of our core technologies, and upgrade and optimize production lines to improve the quality of our PV products," said Mr. Kangping Chen, Chief Executive Officer of JinkoSolar. "In order to further promote the development towards grid parity, we will focus our efforts on product iteration and continue to bring premium quality products to our global customers that will reduce costs and improve system efficiency. In the future, we will continue to assume the responsibility of a leading PV company, bringing to market more optimized PV products, and strongly support the global transformation to clean and green energy and drive the high-quality development of the global solar industry."
