December 16, 2020

(NYSE: JKS) (the "Company," or "JinkoSolar"), one of the largest and most innovative solar module manufacturers in the world, today announced that it has filed a prospectus supplement to sell up to an aggregate of US\$100,000,000 of its American depository shares ("ADSs"), each representing four ordinary shares, through an at-the-market equity offering program. The ADSs will be offered through Credit Suisse and Barclays as sales agents.

Sales, if any, of the ADSs under the at-the-market equity offering program will be made from time to time, at the Company's discretion, by means of ordinary broker transactions on or through the New York Stock Exchange (the "NYSE") or other markets for its ADSs, sales made to or through a market maker other than on an exchange, or otherwise in negotiated transactions at market prices prevailing at the time of sale or at negotiated prices, or as otherwise agreed with the sales agents. JinkoSolar intends to use the net proceeds from the sales of its ADSs for its production capacity expansion and other general corporate purposes. The ordinary shares represented by ADSs will be offered under the Company's shelf registration statement on Form F-3, which became effective on December 16, 2020. A prospectus supplement dated December 16, 2020 and a related base prospectus (included in the Company's shelf registration statement on Form F-3) describing the terms of the offering have been filed with the Securities and Exchange Commission (the "SEC").
