JinkoSolar Recognized as "Overall High Achiever" in RETC's PV Module Index Report for Third Consecutive Year

07/11/2022

JACKSONVILLE, Fla., July 11, 2022 /PRNewswire/ -- JinkoSolar Holding Co., Ltd. (the "Company" or "JinkoSolar") (NYSE:JKS), one of the largest and most innovative solar module manufacturers in the world, today announced that it has been recognized for "Overall High Achievement in Manufacturing" in the 2022 edition of the Renewable Energy Testing Center's ("RETC") PV Module Index Report ("PVMI"). This marks the third consecutive year that the Company has earned recognition as a top performer in the industry-leading report.

The comprehensive PVMI Report summarizes the results of rigorous bankability and beyond-certification tests conducted at RETC's accredited laboratories over a 12-month span. JinkoSolar earned the "Overall High Achiever" designation by excelling across all three of the test categories: quality, performance, and reliability.

"It is an honor to receive this award for the third consecutive year," said Nigel Cockroft, General Manager of JinkoSolar (U.S.) Inc. "This achievement not only highlights our strong commitment to R&D and excellent module performance, but it also demonstrates our continued leadership in the industry."

"The PVMI gives a glimpse of JinkoSolar's balanced focus on innovation and improvement with a relentless commitment to producing dependable, high performing PV modules," said Daniel Chang, VP Business Development for RETC. "Being an 'Overall High Achiever' for the third year in a row also shows JinkoSolar's consistency and ability to supply to demanding PV projects."

About JinkoSolar Holding Co., Ltd.

JinkoSolar (NYSE: JKS) is one of the largest and most innovative solar module manufacturers in the world.
