

JinkoSolar's EAGLE Encore Residential Solar + Energy Storage System Named Sustainable Product of the Year by Green Builder® Media

04/26/2023

JACKSONVILLE, Fla., April 26, 2023 /PRNewswire/ -- JinkoSolar Holding Co., Ltd. (the "Company," or "JinkoSolar") (NYSE: JKS), one of the largest and most innovative solar module manufacturers in the world, today announced that JinkoSolar's EAGLE Encore Residential Solar + Storage platform has been recognized by Green Builder® Media as a 2023 Sustainable Product of the Year.

Green Builder®'s Sustainable Product of the Year lists innovative home building products that raise the bar in sustainability, resiliency, and responsible manufacturing. This is the second consecutive year that JinkoSolar has received this recognition in the Energy Management Category. This year's recognition highlights JinkoSolar's EAGLE Encore platform, an integrated DC-coupled residential solar + storage system comprising the high-power EAGLE Continental solar module and the 7.6kW/26.2kWh EAGLE RS battery storage system. This all-in-one solution utilizes best-in-class Lithium Iron Phosphate (LFP) Li-on battery technology and features a single DC-coupled hybrid inverter which manages power from both the storage and solar systems.

"It's an honor to have our products once again recognized by Green Builder® Media," said Nigel Cockroft, General Manager of JinkoSolar (U.S.) Inc. "Sustainability and resiliency are top-of-mind for most homeowners, and JinkoSolar is proud to offer an all-in-one solution that allows them to generate solar power and store that energy for backup generation, self-consumption, and time-of-use management."

"Congratulations to JinkoSolar and its EAGLE Encore System for earning a spot in our 2023 Sustainable Product of the Year issue. We get excited when we see a company with similar values to ours, and who shares the same goal in making clean, energy efficient products more accessible to homeowners," said Sara Gutterman, Chief Executive Officer of Green Builder® Media.
