

/CORRECTION -- JinkoSolar Holding Co., Ltd./

04/16/2026

In the news release, JinkoSolar Announces Fourth Quarter and Full Year 2025 Financial Results, issued 16-Apr-2026 by JinkoSolar Holding Co., Ltd. over PR Newswire, we are advised by the company that the 1st sentence of paragraph 2 has been updated. The complete, corrected release follows:

JinkoSolar Announces Fourth Quarter and Full Year 2025 Financial Results

SHANGRAO, China, April 16, 2026 /PRNewswire/ -- JinkoSolar Holding Co., Ltd. ("JinkoSolar" or the "Company") (NYSE: JKS), a global leader in clean energy technology, today announced its unaudited financial results for the fourth quarter and full year ended December 31, 2025.

Fourth Quarter and Full Year 2025 Business Highlights

- Module shipments for full year 2025 were 86 GW, ranking first in the industry.
- By the end of the fourth quarter, we became the first module manufacturer in the world to deliver a total of over 390 GW solar modules, with total shipments of the Tiger Neo series surpassing 220 GW, making it the best-selling module series in history.
- Our N-type TOPCon-based perovskite tandem solar cell achieved a new conversion efficiency record of 34.76%.
- By the end of the fourth quarter, we had been granted over 700 TOPCon patents, surpassing most competitors on the N-type TOPCon patent list.
- Full-year energy storage system shipments increased significantly year-over-year, achieving the targets we set at the beginning of the year, while our presence in overseas markets continued to expand.
- We were recognized as a Tier 1 energy storage provider by Bloomberg New Energy Finance (BNEF) for the eighth consecutive quarter.

Fourth Quarter 2025 Operational and Financial Highlights

- Quarterly solar modules shipments were 24,204 MW, up 20.9% sequentially and down 4.0% year-over-year.
- Total revenues were RMB17.51 billion (US\$2.50 billion), up 8.3% sequentially and down 15.2% year-over-year.
- Gross profit was RMB55.1 million (US\$7.9 million), down 95.3% sequentially and 93.0% year-over-year.
- Gross margin was 0.3%, compared with 7.3% in Q3 2025 and 3.8% in Q4 2024.
- Net loss attributable to JinkoSolar Holding Co., Ltd.'s ordinary shareholders was RMB1.50 billion (US\$214.5 million), compared with net loss attributable to JinkoSolar Holding Co., Ltd.'s ordinary shareholders of RMB749.8 million in Q3 2025 and net loss attributable to JinkoSolar Holding Co., Ltd.'s ordinary shareholders of RMB476.7 million in Q4 2024.
- Adjusted net loss attributable to JinkoSolar Holding Co., Ltd.'s ordinary shareholders was RMB837.7 million (US\$119.8 million), which excludes the impact of (i) the change in fair value of convertible notes issued by Jinko Solar Co., Ltd. ("Jiangxi Jinko") in 2023, (ii) the change in fair value of long-term investment, (iii) share-based compensation expenses, and (iv) the impairment of long-lived assets, compared with adjusted net loss attributable to JinkoSolar Holding Co., Ltd.'s ordinary shareholders of RMB373.1 million in Q3 2025 and adjusted net loss attributable to JinkoSolar Holding Co., Ltd.'s ordinary shareholders of RMB430.8 million in Q4 2024.
- Basic and diluted losses per ordinary share were RMB7.16 (US\$1.02) and RMB7.16 (US\$1.02), respectively. This translates into basic and diluted losses per ADS of RMB28.65 (US\$4.10) and RMB28.65 (US\$4.10), respectively.

Full Year 2025 Operational and Financial Highlights

- Annual solar modules shipments were 86,056 MW, down 7.3% year-over-year.
- Total revenues were RMB65.50 billion (US\$9.37 billion), down 29.0% year-over-year.
- Gross profit was RMB1.41 billion (US\$201.7 million), down 86.0% year-over-year.
- Gross margin of 2.2%, compared with 10.9% for the full year of 2024.
- Net loss attributable to JinkoSolar Holding Co., Ltd.'s ordinary shareholders was RMB4.45 billion (US\$635.6 million), down 8,250.2% year-over-year.
- Adjusted net loss attributable to JinkoSolar Holding Co., Ltd.'s ordinary shareholders was RMB3.14 billion (US\$448.6 million), which excludes the impact of (i) the change in fair value of convertible notes issued by Jiangxi Jinko in 2023, (ii) the change in fair value of long-term investment, (iii) share based compensation expenses, (iv) the net loss resulting from the fire accident that occurred at one of our silicon wafer slicing and solar cell manufacturing workshops in Shanxi Province in 2024 (the "Fire Accident"), and (v) the impairment of long-lived assets, compared with adjusted net income attributable to JinkoSolar Holding Co., Ltd.'s ordinary shareholders of RMB521.9 million in 2024.
- Basic and diluted losses per ordinary share were RMB21.33 (US\$3.05) and RMB21.33 (US\$3.05), respectively. This

translates into basic and diluted losses per ADS of RMB85.31(US\$12.20) and RMB85.31 (US\$12.20), respectively.

Mr. Xiande Li, JinkoSolar's Chairman and Chief Executive Officer, commented, "Global module shipments reached 86 GW in 2025, ranking first globally for the seventh time. The global photovoltaic industry continued to experience volatility due to structural imbalances and a shifting trade environment, which negatively impacted financials across the industrial chain. Facing persistently low module prices, the elimination of obsolete production capacity, and a still-evolving product mix, we incurred a net loss for the full year. In the fourth quarter, our gross margin decreased sequentially and our net loss expanded, impacted by factors including rising costs of raw materials such as polysilicon and silver, as well as foreign exchange rate fluctuations. However, our energy storage business maintained its rapid growth trajectory, with shipments growing significantly year-over-year, marking an important step in our ongoing transformation into an integrated energy solutions provider. We expect our ESS shipments to more than double in 2026 compared to 2025, as we penetrate into more high-value markets.

The Chinese government has continued to strengthen its recent policies supporting the high-quality development of the industry. These policies are guiding the industry away from pure competition on scale and price toward a focus on genuine quality and value. In response, leading companies have been actively support government initiatives to return module prices to reasonable levels. In the first quarter of 2026, this dynamic, combined with the pass-through of rising commodity prices such as silver, as well as the impact of export tax rebates on demand, drove a significant sequential rebound in module prices. As the competitive landscape normalizes and supply—demand dynamics gradually improve, we expect module prices to remain relatively stable going forward, with high efficiency and differentiated products continuing to command a premium. Simultaneously, volatility in global energy markets has highlighted the critical need for energy security, reinforcing the long-term value of reliable renewable energy. As solar power generation enters a market-driven phase, industry competition is transitioning to a model centered on technological innovation, product competitiveness, and the ability to deliver integrated solar plus storage solutions—which we are uniquely positioned to capitalize on.

We continue to drive technological breakthroughs and lead industry innovation, highlighting the quality and value we offer. As of the end of the fourth quarter, we became the first module manufacturer in the world to deliver a total of over 390 GW of solar modules, with cumulative shipments of our Tiger Neo series surpassing 220 GW, making it the best-selling module series in history. As of the end of 2025, the maximum laboratory conversion efficiency of our N-type TOPCon cells reached 27.79%, while our N-type TOPCon-based perovskite tandem solar cell achieved a new conversion efficiency record of 34.76%. Our development of silver-coated copper technology is progressing as planned, with large-scale production expected to gradually ramp up in 2026. We also continue to drive product upgrades, with shipments of high-efficiency products that exceed 640 W during the quarter increasing sequentially to approximately 3 GW. As we scale up production of our Tiger Neo 3.0 series this year, the differentiated value proposition of our high-efficiency products will allow us to command higher premiums. Further supporting this is our vertically integrated production model which continues to improve production efficiency and cost competitiveness.

As the global energy transition advances and the demand for grid flexibility increases, the role of energy storage within renewable energy systems continues to strengthen. Looking forward to the medium to long term, as the construction of new power systems advances and new load demand grows from data centers, application scenarios for solar and storage systems will continue to broaden. To address growing customer demand, we continued to optimize our global manufacturing and supply chain footprint. Our 2 GW N-type module facility in the U.S. maintained high utilization rates as we further strengthened local manufacturing and service capabilities there.

Looking forward, we will continue to consolidate our technological leadership, deepen our global footprint, accelerate the development of our integrated solar + storage solutions, and consistently improve our capabilities to deliver comprehensive value through our solutions. This will steadily strengthen our long-term competitiveness and profitability as the industry landscape reshapes. With this in mind, we expect annual integrated production capacity to reach approximately 100 GW by the end of 2026, including 14 GW from overseas facilities. We expect module shipments to be between 13 GW and 14 GW for the first quarter of 2026, and between 75 GW and 85 GW for the full year 2026."

Fourth Quarter 2025 Financial Results

Total Revenues

Total revenues in the fourth quarter of 2025 were RMB17.51 billion (US\$2.50 billion), representing an increase of 8.3% from RMB16.16 billion in the third quarter of 2025 and a decrease of 15.2% from RMB20.65 billion in the fourth quarter of 2024. The sequential increase was primarily due to the increase in the shipment volume of solar modules, while the year-over-year decrease was mainly due to the decrease in the average selling price of solar modules.

Gross Profit and Gross Margin

Gross profit in the fourth quarter of 2025 was RMB55.1 million (US\$7.9 million), compared with RMB1.18 billion in the third quarter of 2025 and RMB789.7 million in the fourth quarter of 2024.

Gross margin was 0.3% in the fourth quarter of 2025, compared with 7.3% in the third quarter of 2025 and 3.8% in the fourth quarter of 2024. The sequential decrease was primarily due to a higher unit cost of products sold, while the year-over-year decrease was mainly due to the decrease in the average selling price of solar modules.

Loss from Operations and Operating Margin

Loss from operations in the fourth quarter of 2025 was RMB3.26 billion (US\$465.7 million), compared with loss from operations of RMB1.40 billion in the third quarter of 2025 and loss from operations of RMB1.94 billion in the fourth quarter of 2024. The sequential and year-over-year increases were primarily attributable to the decrease in our gross margin in the fourth quarter of 2025.

Operating loss margin was 18.6% in the fourth quarter of 2025, compared with operating loss margin of 8.7% in the third quarter of 2025 and operating loss margin of 9.4% in the fourth quarter of 2024.

Total operating expenses in the fourth quarter of 2025 were RMB3.31 billion (US\$473.6 million), representing an increase of 28.0% from RMB2.59 billion in the third quarter of 2025 and an increase of 21.2% from RMB2.73 billion in the fourth quarter of 2024. The sequential and year-over-year increases were primarily due to an increase in the impairment of long-lived assets in the fourth quarter of 2025.

Total operating expenses accounted for 18.9% of total revenues in the fourth quarter of 2025, compared to 16.0% in the third quarter of 2025 and

13.2% in the fourth quarter of 2024.

Interest Expenses and Interest Income

Interest expenses were RMB359.0 million (US\$51.3 million), and interest income was RMB129.3 million (US\$18.5 million) in the fourth quarter of 2025.

Net interest expenses in the fourth quarter of 2025 were RMB229.7 million (US\$32.8 million), representing an increase of 13.8% from RMB201.8 million in the third quarter of 2025 and a decrease of 1.9% from RMB234.3 million in the fourth quarter of 2024. The sequential increase was primarily due to an increase of interest-bearing debt in the fourth quarter of 2025, while the year-over-year decrease was mainly due to an increase of interest income during the fourth quarter of 2025.

Subsidy Income

Subsidy income in the fourth quarter of 2025 was RMB240.4 million (US\$34.4 million), compared with RMB358.6 million in the third quarter of 2025 and RMB900.1 million in the fourth quarter of 2024. The sequential and year-over-year decreases were primarily attributable to the decreases in cash receipt of incentives related to the Company's business operations.

Exchange Loss/Gain and Change in Fair Value of Foreign Exchange Derivatives

The Company recorded a net exchange loss (including change in fair value of foreign exchange derivatives) of RMB303.8 million (US\$43.4 million) in the fourth quarter of 2025, compared to a net exchange gain of RMB0.9 million in the third quarter of 2025 and a net exchange gain of RMB408.2 million in the fourth quarter of 2024. The sequential and year-over-year changes were mainly attributable to fluctuations in the exchange rate of the US dollar and euro against RMB in the fourth quarter of 2025.

Change in Fair Value of Long-term Investment

The Company holds certain equity interests in several solar technology companies in the photovoltaic industry, which are recorded as long-term investment and available-for-sale securities and reported at fair value with changes in fair value recognized as gains or losses. As of December 31, 2025, the Company had RMB864.4 million (US\$123.6 million) in available-for-sale securities and long-term investment (excluding the investments accounted for under the equity method and held-to-maturity debt securities), compared with RMB1.15 billion as of September 30, 2025.

The Company recognized a loss from the change in fair value of long-term investment of RMB23.7 million (US\$3.4 million) in the fourth quarter of 2025, compared with a gain of RMB60.7 million in the third quarter of 2025 and a gain of RMB332.3 million in the fourth quarter of 2024. The sequential and year-over-year changes were primarily due to the decreases in the fair value of several solar technology companies we invested in.

Other Income/Loss, Net

Net other income in the fourth quarter of 2025 was RMB26.0 million (US\$3.7 million), compared with net other loss of RMB121.1 million in the third quarter of 2025 and net other loss of RMB758.4 million in the fourth quarter of 2024. The sequential and year-over-year changes were mainly due to the changes in the fair value of financial instruments in the fourth quarter of 2025.

Equity in Loss/Income of Affiliated Companies

The Company indirectly holds equity interests in several affiliated companies engaged in solar business, which are accounted for using the equity method. The Company recorded equity in loss of affiliated companies of RMB33.8 million (US\$4.8 million) in the fourth quarter of 2025, compared with equity in income of affiliated companies of RMB2.9 million in the third quarter of 2025 and equity in loss of affiliated companies of RMB119.2 million in the fourth quarter of 2024. The fluctuations in equity in loss or income of affiliated companies primarily arose from the changes in net losses or gains incurred by the affiliated companies.

Income Tax Benefit

The Company recorded an income tax benefit of RMB1.04 billion (US\$148.9 million) in the fourth quarter of 2025, compared with income tax benefit of RMB191.6 million in the third quarter of 2025 and income tax benefit of RMB580.5 million in the fourth quarter of 2024.

Net Loss Attributable to Non-Controlling Interests

Net loss attributable to non-controlling interests amounted to RMB1.06 billion (US\$152.0 million) in the fourth quarter of 2025, compared with net loss attributable to non-controlling interests of RMB385.8 million in the third quarter of 2025 and RMB370.2 million in the fourth quarter of 2024. The sequential and year-over-year increases were mainly attributable to the increases in net loss of Jiangxi Jinko, the Company's majority-owned principal operating subsidiary.

Net Loss and Losses per Share

Net loss attributable to JinkoSolar Holding Co., Ltd.'s ordinary shareholders was RMB1.50 billion (US\$214.5 million) in the fourth quarter of 2025, compared with net loss attributable to JinkoSolar Holding Co., Ltd.'s ordinary shareholders of RMB749.8 million in the third quarter of 2025 and RMB476.7 million in the fourth quarter of 2024.

Excluding the impact of (i) the change in fair value of convertible notes issued by Jiangxi Jinko in 2023, (ii) the change in fair value of the long-term investment, (iii) share-based compensation expenses, and (iv) the impairment of long-lived assets, adjusted net loss attributable to JinkoSolar Holding Co., Ltd.'s ordinary shareholders was RMB837.7 million (US\$119.8 million) in the fourth quarter of 2025, compared with adjusted net loss attributable to JinkoSolar Holding Co., Ltd.'s ordinary shareholders of RMB373.1 million in the third quarter of 2025 and RMB430.8 million in the fourth quarter of 2024.

Basic and diluted losses per ordinary share were RMB7.16 (US\$1.02) and RMB7.16 (US\$1.02), respectively, in the fourth quarter of 2025, compared to basic and diluted losses per ordinary share of RMB3.58 and RMB3.58, respectively, in the third quarter of 2025, and basic and diluted losses per ordinary share of RMB2.32 and RMB2.32, respectively, in the fourth quarter of 2024. As each ADS represents four ordinary shares, this translates into

basic and diluted losses per ADS of RMB28.65 (US\$4.10) and RMB28.65 (US\$4.10), respectively, in the fourth quarter of 2025; basic and diluted losses per ADS of RMB14.32 and RMB14.32, respectively, in the third quarter of 2025; and basic and diluted losses per ADS of RMB9.28 and RMB9.28, respectively, in the fourth quarter of 2024.

Full Year 2025 Financial Results

Total Revenues

Total revenues for full year 2025 were RMB65.50 billion (US\$9.37 billion), representing a decrease of 29.0% from RMB92.26 billion for full year 2024. The decrease in total revenues was mainly attributable to the decrease in average selling price of solar modules.

Gross Profit and Gross Margin

Gross profit for full year 2025 was RMB1.41 billion (US\$201.7 million), a decrease of 86.0% from RMB10.06 billion for full year 2024. The year-over-year decrease was mainly attributable to the decrease in average selling price of solar modules in 2025.

Gross margin was 2.2% for full year 2025, compared with 10.9% for full year 2024. The year-over-year decrease was mainly attributable to the decrease in average selling price of solar modules.

Loss from Operations and Operating Margin

Loss from operations for full year 2025 was RMB8.91 billion (US\$1.27 billion), compared with loss from operations of RMB3.34 billion for full year 2024. Operating loss margin for full year 2025 was 13.6%, compared with operating loss margin of 3.6% for full year 2024.

Total operating expenses for full year 2025 were RMB10.32 billion (US\$1.48 billion), a decrease of 23.0% from RMB13.40 billion for full year 2024. As a percentage of total revenues, operating expenses accounted for 15.8% for full year 2025, compared with 14.5% for full year 2024. The decrease in total operating expenses was primarily due to (i) a reduction in shipping cost, driven by lower solar module shipment volumes and a decline in average freight rate in 2025, and (ii) lower employee compensation costs in 2025.

Interest Expenses and Interest Income

Interest expenses were RMB1.36 billion (US\$194.5 million), and interest income was RMB504.1 million (US\$72.1 million) for the full year 2025.

Net interest expenses for full year 2025 was RMB856.0 million (US\$122.4 million), an increase of 17.5% from RMB728.4 million for full year 2024. The increase was mainly due to an increase in interest-bearing debts in 2025.

Subsidy Income

Subsidy income for full year 2025 was RMB1.15 billion (US\$164.0 million), compared with RMB2.45 billion for full year 2024. The year-over-year decrease was mainly attributable to a decrease in the cash receipt of incentives to the Company's business operations.

Exchange Loss/Gain and Change in Fair Value of Foreign Exchange Derivatives

The Company recorded a net exchange loss (including change in fair value of foreign exchange derivatives) of RMB89.6 million (US\$12.8 million) for full year 2025, which was primarily due to the depreciation of the US dollar and euro against RMB. The Company recorded a net exchange gain (including change in fair value of foreign exchange derivatives) of RMB601.0 million for full year 2024. The year-over-year change was mainly driven by the exchange rate fluctuations of the US dollar and euro against RMB in 2025.

Change in Fair Value of Long-term Investment

The Company holds certain equity interests in several solar technology companies in the photovoltaic industry, which are recorded as long-term investment and available-for-sale securities and reported at fair value with changes in fair value recognized as gains or losses. As of December 31, 2025, the Company had RMB864.4 million (US\$123.6 million) in available-for-sale securities and long-term investment (excluding the investments accounted for under the equity method and held-to-maturity debt securities), compared with RMB1.05 billion as of December 31, 2024. The Company recognized a gain from change in fair value of long-term investment of RMB33.2 million (US\$4.7 million) for full year 2025, compared to a gain of RMB163.5 million for full year 2024.

Other Loss/Income, net

Net other loss for full year 2025 was RMB512.9 million (US\$73.3 million), compared with net other income of RMB796.3 million for full year 2024. The decrease was primarily due to income generated from the disposal of a wholly-owned subsidiary in 2024.

Equity in Loss of Affiliated Companies

The Company indirectly holds equity interests in several affiliated companies engaged in solar business, which are accounted for using the equity method. The Company recorded equity in loss of affiliated companies of RMB147.9 million (US\$21.1 million) in 2025, compared with equity in loss of affiliated companies of RMB177.0 million in 2024. The fluctuations in equity in loss of affiliated companies primarily arose from the changes in net losses incurred by the affiliated companies.

Income Tax Benefit/Expense, Net

The Company recognized an income tax benefit of RMB2.22 billion (US\$317.6 million) in 2025, compared with an income tax expense of RMB69.4 million in 2024.

Net Loss/Income and Losses/ Earnings per Share

Net loss attributable to JinkoSolar Holding Co., Ltd.'s ordinary shareholders in 2025 was RMB4.45 billion (US\$635.6 million), compared with a net income attributable to JinkoSolar Holding Co., Ltd.'s ordinary shareholders of RMB54.5 million in 2024.

Excluding the impact of (i) the change in fair value of convertible notes issued by Jiangxi Jinko in 2023, (ii) the change in fair value of the long-term investment, (iii) share based compensation expenses, (iv) the net loss resulting from the Fire Accident, and (v) the impairment of long-lived assets, adjusted net loss attributable to JinkoSolar Holding Co., Ltd.'s ordinary shareholders was RMB3.14 billion (US\$448.6 million), compared with adjusted net income attributable to JinkoSolar Holding Co., Ltd.'s ordinary shareholders of RMB521.9 million in 2024.

Basic and diluted losses per share for full year 2025 were RMB21.33 (US\$3.05) and RMB21.33 (US\$3.05), respectively, compared to basic earnings per share of RMB0.26 and diluted losses per share of RMB1.27, respectively, for full year 2024. This translates into basic and diluted losses per ADS of RMB85.31 (US\$12.20) and RMB85.31 (US\$12.20), respectively, for full year 2025, compared to basic earnings per ADS of RMB1.04 and diluted losses per ADS of RMB5.06, respectively, for full year 2024.

Financial Position

As of December 31, 2025, the Company had RMB22.94 billion (US\$3.28 billion) in cash, cash equivalents, and restricted cash, compared with RMB27.74 billion as of December 31, 2024.

As of December 31, 2025, the Company's accounts receivables were RMB13.59 billion (US\$1.94 billion), compared with RMB14.07 billion as of December 31, 2024.

As of December 31, 2025, the Company's inventories were RMB14.48 billion (US\$2.07 billion), compared with RMB12.51 billion as of December 31, 2024.

As of December 31, 2025, the Company's total interest-bearing debts were RMB47.01 billion (US\$6.72 billion), compared with RMB40.59 billion as of December 31, 2024.

Operations and Business Outlook Highlights

First Quarter and Full Year 2026 Guidance

The Company's business outlook is based on management's current views and estimates with respect to market conditions, production capacity, the Company's order book and the global economic environment. This outlook is subject to uncertainty on final customer demand and sale schedules. Management's views and estimates are subject to change without notice.

For the first quarter of 2026, the Company expects its module shipments to be in the range of 13.0 GW to 14.0 GW.

For full year 2026, the Company estimates its module shipments to be in the range of 75.0 GW to 85.0 GW.

For full year 2026, the Company expects its ESS shipments to be more than doubled year-over-year.

Solar Products Production Capacity

The Company expects its annual integrated production capacity to be 100GW, including 14 GW overseas, by the end of 2026, by the end of 2026.

Recent Business Developments

- In February 2026, Jinko ESS North American business unit has received IEC 62443-2-4 certification from exida, a globally recognized authority in industrial cybersecurity and functional safety.
- In February 2026, Jiangxi Jinko published certain preliminary unaudited consolidated financial results as of and for the full year ended December 31, 2025.

Conference Call Information

JinkoSolar's management will host an earnings conference call on Thursday, April 16, 2026 at 8:00 a.m. U.S. Eastern Time (8:00 p.m. Beijing / Hong Kong the same day).

Please register in advance of the conference using the link provided below. Upon registering, you will be provided with participant dial-in numbers, passcode and unique access PIN by a calendar invite.

Participant Online Registration: <https://s1.c-conf.com/diamondpass/10054051-xbgjcl.html>

It will automatically direct you to the registration page of "JinkoSolar Fourth Quarter and Full Year 2025 Earnings Conference Call", where you may fill in your details for RSVP.

In the 10 minutes prior to the call start time, you may use the conference access information (including dial-in number(s), passcode and unique access PIN) provided in the calendar invite that you have received following your pre-registration.

A telephone replay of the call will be available 2 hours after the conclusion of the conference call through 23:59 U.S. Eastern Time, April 23, 2026. The dial-in details for the replay are as follows:

International: +61 7 3107 6325

U.S.: +1 855 883 1031

Passcode: 10054051

Additionally, a live and archived webcast of the conference call will be available on the Investor Relations section of JinkoSolar's website at <http://www.jinkosolar.com>.

About JinkoSolar Holding Co., Ltd.

JinkoSolar (NYSE: JKS) is a global leader in clean energy technology. JinkoSolar distributes its solar products and sells its solutions and services to a diversified international utility, commercial and residential customer base in China, the United States, Japan, Germany, the United Kingdom, Chile, South Africa, India, Mexico, Brazil, the United Arab Emirates, Italy, Spain, France, Belgium, Netherlands, Poland, Austria, Switzerland, Greece and other countries and regions.

JinkoSolar had over 10 production facilities globally, over 20 overseas subsidiaries in Japan, South Korea, Vietnam, India, Turkey, Germany, Italy, Switzerland, the United States, Mexico, and other countries, and a global sales network with sales teams in China, the United States, Canada, Brazil, Chile, Mexico, Italy, Germany, Turkey, Spain, Japan, the United Arab Emirates, Netherlands, Vietnam and India, as of December 31, 2025.
