JinkoSolar Announces 1.3 MW Solar Module Supply Agreement with Leading U.S. Solar Integrator Premier Power

January 7, 2011

SHANGHAI, Jan. 7, 2011 /PRNewswire via COMTEX/ --

JinkoSolar Holding Co., Ltd. (NYSE: JKS) ("JinkoSolar"), a fast-growing vertically integrated solar product manufacturer with low-cost operations based in China, announced today that it has entered into a module supply agreement with Premier Power Renewable Energy, Inc. ("Premier Power"), a leading photovoltaic system integrator based in California. Under the terms of the agreement, JinkoSolar will supply Premier Power with 1.3 megawatts of multi-crystalline solar modules in the first quarter of 2011.

The agreement enables Premier Power to expand its product portfolio to include another high-quality supplier with cost-efficient manufacturing. JinkoSolar continuously improves the quality and cost of its products through its vertical integration, proprietary technology, equipment updates and strict quality control procedures in accordance with ISO 9001 quality management standards. JinkoSolar has received CE and TUV certifications for all solar modules sold in Europe and UL certifications for all solar modules sold in the United States.

"Premier Power has always sought to be an innovative leader in solar energy integration systems. We welcome JinkoSolar to our group of strategic suppliers, with whom we work closely on a continual basis to maximize performance and drive down costs," said Dean Marks, chairman and chief executive officer of Premier Power.

"We are excited to develop a long-term customer relationship with a leading global solar player like Premier Power," said JinkoSolar's Chairman of the Board of Directors, Mr. Xiande Li. "Our products are among the most efficient, affordable and reliable products available today. Our vertically integrated manufacturing platform provides a more efficient production process with shorter product development and production cycles as well as better control over quality and lower costs compared to less vertically integrated solar power companies. We're pleased that we were selected by Premier Power for this supply agreement to the U.S. as we look to expand our geographic presence and capitalize on the growth of the U.S. solar market."

About Premier Power Renewable Energy, Inc.

Premier Power Renewable Energy, Inc. is a leading global provider of large and small-scale solar power systems, delivering unmatched experience to commercial, governmental and residential customers throughout North America and Europe. Premier Power designs, engineers and integrates the solar industry's leading products. Premier Power's technologies and services have enabled its customers to maximize clean energy output along with project savings. Today, Premier Power designs and deploys the most innovative solar electric systems through market-leading innovation and exceptional customer service.
