

JinkoSolar Unveils World's First Double 85 Certified PID Free Solar Module

January 18, 2013

SHANGHAI, Jan. 18, 2013 /PRNewswire/ -- JinkoSolar Holding Co., Ltd. ("JinkoSolar" or the "Company") (NYSE: JKS), a leading global solar power product manufacturer, today unveiled its new series of "Eagle" solar modules. The Eagle series modules represent a new standard for high performance and reliability and are the world's first potential induced degradation ("PID") free modules to be certified under weather conditions of 85 Degrees Celsius 85% relative humidity.

The Eagle series modules feature JinkoSolar's innovative cell and assembly technology which enables it to resist PID under the toughest weather conditions and are of reaching 260 Watts peak power output; a record for commercially available mass-produced modules.

"With the introduction of our Eagle series solar modules, JinkoSolar is leading the way in the adoption of new industry standards with PID free modules in mass production," said CEO Kangping Chen. "In response to the increasing demand by our customers and partners, JinkoSolar was able to rapidly develop PID free modules to reduce the risk involved and guarantee the greatest return on investments. As such, we are demonstrating JinkoSolar's commitment to consistently delivering the most reliable solar technology and the best quality products on the market."
