JinkoSolar Modules to Power Arc House at Solar Power International

09/09/2016

SHANGHAI, Sept. 9, 2016 /PRNewswire/ -- JinkoSolar Holding Co., Ltd. ("JinkoSolar"), a global leader in the photovoltaic (PV) industry, today announced that its wholly owned subsidiary, JinkoSolar (U.S.) Inc., in partnership with Green Builder® Media, will showcase the Arc House, a small, smart, net-zero carbon footprint home at Solar Power International (SPI).

JinkoSolar's all black, high efficiency modules will power the Arc House, allowing the smart home to function completely off the grid. This net-zero carbon footprint home will automatically adjust and optimize energy use with an integrated smart home technology and solar system which will also manage the production, storage, and monitoring of energy use. SPI attendees will be able to tour the Arc House's 432 square foot highly efficient living space.

"Solar has become a mature, competitive energy source, and we are excited to show what JinkoSolar modules can do for homes of all sizes and shapes," said Nigel Cockroft, General Manager of JinkoSolar (U.S.) Inc. "The Arc House in particular is a glimpse into the potential of smart, tiny homes. We are grateful to be partnered with Green Builder® Media, a company consistently on the forefront of the most pressing environmental issues of our time, to bring forth a vision of the future of sustainable living."

"JinkoSolar is a natural fit for this project. Aside from producing aesthetically pleasing all black, high powered panels, JinkoSolar is also a financially stable global solar leader, with strong vision in the future of energy efficient, residential living," said Sara Gutterman, CEO of Green Builder Media. "While the Arc House is a demonstration house, we ultimately intend for visitors to be inspired to use the same components and ideas for their own homes."

About JinkoSolar Holding Co., Ltd.

JinkoSolar (NYSE: JKS) is a global leader in the solar industry. JinkoSolar distributes its solar products and sells its solutions and services to a diversified international utility, commercial and residential customer base in China, the United States, Japan, Germany, the United Kingdom, Chile, South Africa, India, Mexico, Brazil, the United Arab Emirates, Italy, Spain, France, Belgium, and other countries and regions. JinkoSolar has built a vertically integrated solar product value chain, with an integrated annual capacity of 3.5 GW for silicon ingots and wafers, 3.5 GW of solar cells, and 6.5 GW for solar modules, as of June 30, 2016. JinkoSolar also sells electricity in China, and had connected approximately 1,130 MW of solar power projects to the grid, as of June 30, 2016.

JinkoSolar has over 15,000 employees across its 6 production facilities in Jiangxi, Zhejiang and Xinjiang Provinces, China, Malaysia, Portugal and South Africa; 16 overseas subsidiaries in Japan (2), Singapore, India, Turkey, Germany, Italy, Switzerland, Spain, United States, Canada, Mexico, Brazil, Chile, Australia and South Africa; and 18 global sales offices in China (2), United Kingdom, Bulgaria, Greece, Romania, United Arab Emirates, Jordan, Saudi Arabia, Kuwait, Egypt, Morocco, Ghana, Kenya, Costa Rica, Colombia, Brazil and Mexico.
