

Building Your Trust in Solar

JinkoSolar Helps Create Nation's First PV Recycling Network

September 26, 2016

SHANGHAI, Sept. 26, 2016 /PRNewswire/ -- JinkoSolar Holding Co., Ltd. ("JinkoSolar"), a global leader in the photovoltaic (PV) industry, today announced that its wholly owned subsidiary, JinkoSolar (U.S.) Inc., in partnership with the Solar Energy Industries Association (SEIA) and a coalition of other solar companies, has successfully launched the nation's first PV recycling program, which includes a network of cost-effective recyclers that can responsibly dispose of decommissioned PV modules.

While JinkoSolar modules are expected to last at least 25 years, PV system owners now have dedicated resources to help aid in responsible disposal of modules once they reach the end of their life cycle. JinkoSolar modules recently passed toxicity characteristic leaching procedure (TCLP) tests. Products that do not leach toxic materials at levels exceeding regulatory limits are termed TCLP compliant. TCLP compliant JinkoSolar modules will give system owners more time and flexibility to dispose of the modules.

"JinkoSolar has always been keen to ensure that its modules are clean and eco-friendly from cradle to grave," said Nigel Cockcroft, General Manager of JinkoSolar (U.S.) Inc. "By passing TCLP tests and helping start this recycling framework, JinkoSolar has shown that it is a true leader in environmental responsibility."

About JinkoSolar Holding Co., Ltd.

JinkoSolar (NYSE: JKS) is a global leader in the solar industry. JinkoSolar distributes its solar products and sells its solutions and services to a diversified international utility, commercial and residential customer base in China, the United States, Japan, Germany, the United Kingdom, Chile, South Africa, India, Mexico, Brazil, the United Arab Emirates, Italy, Spain, France, Belgium, and other countries and regions. JinkoSolar has built a vertically integrated solar product value chain, with an integrated annual capacity of 3.5 GW for silicon ingots and wafers, 3.5 GW of solar cells, and 6.5 GW for solar modules, as of June 30, 2016. JinkoSolar also sells electricity in China, and had connected approximately 1,130 MW of solar power projects to the grid, as of June 30, 2016.

JinkoSolar has over 15,000 employees across its 6 production facilities in Jiangxi, Zhejiang and Xinjiang Provinces, China, Malaysia, Portugal and South Africa; 16 overseas subsidiaries in Japan (2), Singapore, India, Turkey, Germany, Italy, Switzerland, Spain, United States, Canada, Mexico, Brazil, Chile, Australia and South Africa; and 18 global sales offices in China (2), United Kingdom, Bulgaria, Greece, Romania, United Arab Emirates, Jordan, Saudi Arabia, Kuwait, Egypt, Morocco, Ghana, Kenya, Costa Rica, Colombia, Brazil and Mexico.
