

JinkoSolar Becomes First Chinese PV Manufacturer to Pass 160 KWh/m² UV Test (according to IEC 61345)

May 11, 2017

SHANGHAI, May 11, 2017 /PRNewswire/ -- JinkoSolar Holding Co., Ltd. ("JinkoSolar" or the "Company") (NYSE: JKS), a global leader in the PV industry, today announced that its modules have passed intensive UV test in terms of IEC61345 from TÜV Rheinland.

Comparing with test procedure of UV Preconditioning test defined in IEC61215, which is the major international standard of the industry, IEC 61345 intend to verify the sample's UV resistance under different ultraviolet level ("UVB", 320nm~400nm "UVB", 280nm~320nm). By considering the test condition of that, Jinko required TÜV Rheinland to perform the special UV test which had more than 160KWh/m² irradiance for exposure (137.84KWh/m² for front side and 30.07KWh/m² for rear side). And power degradation was less than 5%.

"I'm proud that JinkoSolar is the first Chinese PV manufacturer to pass intensive UV test according to IEC61345, which further demonstrates our technology strength and leading position in the industry," commented Mr. Kangping Chen, Chief Executive Officer of JinkoSolar. "We have always been committed to providing our clients with the highest quality and most reliable products while being at the forefront of solar technology."
